

Send Written Prayers

Unity of Gulf Breeze is a family size church located on the road between Pensacola and Pensacola Beach. Yesterday the oil landed on our beautiful white beaches, there is no swimming allowed now due to the oil and other toxins that have washed in. While we are affirming a solution, we are experiencing first hand the loss of the lives of so many beautiful creatures . We need your prayer support. I am asking that you send written prayers to us words from your hands and heart are very powerful. We will post them on the walls of the church to lift us up. Many of us have completed the training to qualify as volunteers and are on standby. See us empowered by faith not constricted by fear. Help us with this process. We know the church walls will be filled soon. We will provide meditation and prayer services and recreational activities for the community. There are many church communities impacted by this event we affirm we are all surrounded by love and strength.

In Love and Grace
